I often get asked during preparation what books I use as reference. Stanley Gibbons in respect of postage stamps. Ed Deschls publication regarding postal stationery. Koeppl & Manners in respect of fiscal stamps, however the latter's pricing is very suspect. It is on this point that I must point collectors of this material to the excellent new reference disc on states A&B produced by our members M Blatt, J Cerny and M Mollah. I have used it for the first time on the production of this auction, and hope to receive the other volumes in the near future. If a copy of the disk is wanted either contact one of them or me and I will direct you to them. In this sale, and the next three, you will note copious quantities of fiscal material I have been asked to sell on behalf of a deceased member (dying early of cancer) from his extensive collection.

I would ask you to support this generously as his widow is left with a very young baby.
